The present restrictions on cell phone usage in flight is greatly appreciated and

adequate. Allowing the full use of phones in flight will create more frustration, irritaion $% \left(1\right) =\left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left$

and an overall unpleasant environment. I strongly encourage the FCC anf FAA to keep $\,$

the current guidelines in place. Thank You.
